

SPHE - Fast Fashion

Part A: Diamond Sorting

Take a look at the statements down below. Sort them into piles, one for positive things about Fast Fashion and one for negative things about Fast Fashion.

Clothes are cheaper than ever.	People are less likely to take care of cheap clothes.	People are buying more clothes than ever before.
Advertising persuades people to buy more clothes than they need.	Cheap clothes are lower quality, meaning they fall apart quicker.	People replace clothes quicker and only wear them a few times.
There are new styles and fashion trends every few weeks.	The more clothes that are needed, the more cotton is needed.	More clothes are ending up in landfills than ever before.

Positive

Negative
