

WW1 Art - Razzle Dazzle Camo

Wilkenson is hiring a new crew of dazzle painters. He has started a competition for a new design. Take a look at what he wants to see below and then create your own dazzle designs on the following pages.

- Bold colours that will help us blend into our surroundings
- Confusing patterns on the sides of the ship that make the ship look smaller than it really is
- A different pattern on each side of the ship
- A catchy name for the pattern you designed
