

Part B: Camouflage Patterns

Follow the steps below to experiment with the art of camouflage:

On one sheet of paper draw a network of connected curvy lines like this.

Choose at least 4 different colours to fill in your spaces with. Colour them in.

On another piece of paper draw any animal or item you want. Cut it out and place it onto your camouflage pattern page. Colour in your object with the same colours in the background. Finally, join up the white lines to make it blend in.
