

# The Explorer - Chapter 4 (Part One)

In chapter 4, we hear how the gang are making their way through the jungle to try and find fresh water.

Imagine you are making the journey from camp to the river. Along the way you have to remember 3 landmarks that you saw on the journey. In the boxes, describe 3 different things you see along the way that will help you find your way back! Remember to use lots of detail. (not "a tree")
