

What is Capacity? Activities

Fill the measuring jugs below with containers we would measure in **millilitres (ML)** and **litres (L)**. You can draw or write in the boxes. I have done one for you to help.

Match the container with the correct capacity down below! Use your best estimates to help you!

50 ml

300 ml

330ml

5 ml

2 million L

1 L

2 L

200 L
