

People of the Rainforest! Activities

CONGRATULATIONS!

You have been chosen for the first ever Amazon-Dublin kid swap! You will be sent off to live with a family in the Amazon rainforest for a month and their child will live with your family!

Write a note to the Amazon kid who is coming to live with your family. Give them with some tips on how to survive life where you live.

Remember, they know absolutely **NOTHING** about life where you live. They know **NOTHING** about how our technology works. They have never been out of the rainforest. Use really simple English to explain everything. Here are the things they want to know:

- Where do I hunt for food if I am hungry?
- Who is the leader of the tribe you live with?
- What dangerous animals do I need to look out for?
- Where is the best place to light my campfire at night?
- What do I do if I get bored?

- Ubuntu

People of the Rainforest! Activities

Dear Ubutu,

Soon you will be coming to live in my home. I am leaving you this note to give you some tips on how to survive here. Here is everything you need to know...
