

Aliens? Disease? War? Activities

Down below are some of the theories that people have come up with to explain what happened to the Mayans. Using everything you know about them, put them in **order** from **most likely** to **least likely**. When you have done that give **one reason why** you picked those for **most likely** and **least likely**.

Theories on why the Mayans abandoned their cities:

- A flood came and washed everyone away.
- Aliens took everyone who lived in a Mayan city.
- There wasn't enough food for the people in the cities.
- A big battle or war killed most of the Mayans.
- A disease came and spread through the cities.
- Write your own theory

Most Likely Reason

Least Likely Reason

I think the most likely reason is:

because

I think the most likely reason is:

because
