

# Where does our food come from?

Part B: Time to do a bit of investigating. Head to your kitchen. Have a look at the packaging on some food, especially the fruit and vegetables. Fill in the table below to track where your food has come from!

Food	What plant does it come from?	What country did it come from?

Part C: Some rainforest food plants grow in very unusual ways. Peanuts grow under the ground like this:

Draw how you think PINEAPPLES grow in this box
